

**NEVADA STATE BOARD OF
PHYSICAL THERAPY EXAMINERS**

MINUTE FOR BOARD MEETING SEPTEMBER 12, 2013

- Item 1- Call to order / roll call to determine the presence of a quorum. After determining the presence of a quorum, the meeting was called to order at 9:20am. Board members present in Reno: Kathleen Sidener, PT, Certified MDT, Chairman; Tina Baum, PT, ATC, CLT, Secretary/Treasurer; James McKivigan, DC, PT. Non-members present: Richard Dreitzer, legal counsel. Louie Puentedura, PT, DPT, PhD, FAAOMPT, Vice Chairman, and Allison Tresca, executive director, in attendance via phone from the Board office.
- Item 2 – Pledge of Allegiance.
- Item 3 – Public comment period. Chairman Sidener stated Angelo Sakelaris arrived at the meeting before it started and she presented him with a plaque, card and gift for his 13 years of service as Board Inspector. Mr. Sakelaris was thanked for his dedication and service, and his high level of competency in investigating cases. It was noted he had a great demeanor that the licensees appreciated him.
- Item 4- Applicant Jared Pugmire requests to take the National Physical Therapy Examination for Physical Therapist a fourth time in accordance with NRS 640.140.

After returning to open session:

Motion to approve for January test date:

Second: Baum.

Passes unanimously.

- Item 5- Dr. David Rovetti, DC, President of the Chiropractic Physicians' Board of Nevada requests to discuss their February 12, 2013 letter to the PT Board, and the PT Board's May 13, 2013 reply letter.

David Rovetti, DC, Chairman of the Chiropractic Physicians' Board of Nevada and their counsel, Louis Ling appeared. Dr. Rovetti stated that in 1997 a complaint was filed with the Nevada Physical Therapy Board regarding a patient who claimed to be injured from a PT performing Chiropractic treatments. He stated that the Board found no violation occurred. He then stated that in 2009 their Board made a request for the withdrawal of a course approval for a course dealing with high velocity, low amplitude thrust manipulation. He stated that the committee denied the request, citing it was within the scope of practice, and the Board upheld the recommendation of the committee. He stated that the seminar popped up again, and they requested Attorney General Opinion if it is within the PT scope of practice. He stated the AG opinion reported that it is beyond PT scope of practice. He stated they requested course approvals be withdrawn for the

course, and 3 months later they received a letter from the PT declining to do that, with the PT Board stating it was still within scope of practice. He stated he saw the PT letter to the AG office, and in that letter the PT Board claims the Chiropractors don't want the PTs doing any manipulation. Dr. Rovetti said he wanted the Board to reconsider the continuing education approval of thrust manipulation course, and reiterated it was not within the scope of PT practice. Dr. Rovetti stated this was for protection of the public, and the Board should deny the courses and send a newsletter to the PTs that manipulations are not part of PT practice. Mr. Ling stated that the AGs May 9, 2013 letter is critical in that it states the AG stands by their original opinion. Richard Dreitzer stated that the opinion says PTs cannot perform chiropractic manipulations, so yes the opinion stands, and the Board agrees that PTs cannot do chiropractic manipulations. Mr. Dreitzer also noted that the opinion states that "not all manipulations are denied to PTs". It was discussed that someone needs to be in the room to know if it is chiropractic or physical therapy, and PTs do treatments for their reason within their scope, and Chiropractors do treatments for their reason and within their scope, and both can and do exist. Dr. Rovetti stated again that PTs cannot do chiropractic adjustments. Chairman Sidener stated that PTs are not doing chiropractic adjustments; PTs perform physical therapy treatments. Mr. Ling stated that everybody hates when the Boards get into these frictions so how do we resolve it. He stated that the Governor and Legislature hate when Boards get into these issues, and stated that the point of friction is grade 5 mobilization, which is manipulation with thrust. He asked if someone walked into a room and performed it, without the person having a title, would it be a chiropractic adjustment? He stated that without the label it looks like chiropractic, then it is a chiropractic adjustment. He stated that statute looks at what you do, not what you call it. Mr. Ling stated that they would like to attend one of the courses offered by Dr. James Dunning, but he won't let them attend. They stated they would like to attend to see what he is teaching. Dr. Ling stated it is a shame we have this friction, but if we could go to that course we could be rest-assured. Mr. Ling stated the AG says the PTs cannot do this, and noted that practice acts expand and the Board needs to change their law if they want to practice manipulations. He stated that they need to resolve this with the Board or they will look at what their next step is. He stated they don't want to have to go to the next step, and maybe they are operating under a false assumption as to what he is teaching. Mr. Ling stated that Dr. Dunning's CV looks like he is teaching chiropractic. Chairman Sidener stated that the reason a PT performs a manipulation is different and techniques are different than Chiropractic, and are not chiropractic. Mr. Ling said the last thing he wants is some judge who does not know Chiro or PT to decide this. Mr. Dreitzer stated that perhaps the Chiro con ed panel can meet with the PT con ed panel. Dr. Rovetti stated that they have a continuing education chairman, and perhaps he can meet with the PT continuing education chairman. Board member Baum noted that when looking at protecting the public, Dr. Dunning is not touching Nevada patients. Dr. Rovetti stated that the legislature library had 150 pages of when this was added to the law it was very clear that it is not allowed, and the testimony of PTs at that time was that they do not do thrust. Paula Berkley stated that she was a lobbyist representing the Chiro Board previously, and back then PTs gave Chiro

physiotherapy and PTs can perform manipulations. Board member Puentedura stated he did not hear a vote as to what will occur. He stated that he is on the Advisory Committee for Continuing Education, and he does not agree that the committees, or their respective Chairman, should meet. He stated there are too many issues involved, and one is that Dr. Dunning has a right to teach. He also stated that licensees who attend have to abide by their scope of practice. He stated that Dr. Dunning has successfully defended himself in Arkansas. He stated that he does not believe the Board needs to advance the discussion. He stated that the licensees are acting within the scope, and if complaints are filed, the Board will thoroughly and fairly investigate. Dr. Rovetti asked who had input on the letter Chairman Sidener wrote to their Board. Mr. Dreitzer stated that the creation of letters are a matter of attorney client privilege, and are based on what the Board has discussed during Board meetings. Dr. Rovetti stated that Dr. Puentedura has not disclosed that he teaches this, both at UNLV and as a continuing education provider. Mr. Dreitzer stated that this issue has nothing to do with lining anyone's pockets, and noted that the course approvals occurred well before Dr. Puentedura was on the Board, and such courses have received unanimous approvals by the committee and the Board over the years.

Item 6- Dr. Louie Puentedura, Vice Chairman, reports on his attendance at the 2013 Federation of State Boards of Physical Therapy Leadership Issues Forum. Board member Puentedura stated the FSBPT is an amazing organization, and what they do is something to behold. He noted the basic premise is to increase exam security, making sure it is appropriate to measure competency. Board member Puentedura stated they discussed a lifetime 6 attempts per candidate. He noted that all jurisdictions use the NPTE, and some jurisdictions allow 9 10 times, but the main concern in the competency. He noted the matter will be placed before the delegates at the annual FSBPT in October, and is likely to pass as there is strong support. He also noted that licensure portability was discussed, which will allow someone to work in a neighboring state if they are licensed in one of the compact states. It was discussed that inspections would be a challenged because the law applies to our licensees only, so laws across the nation would need to be changed. The director noted that the FSBPT has been slowly working towards national licensure and this is another step. She noted that when doing compact licenses, they are only as strong as they weakest state and this Board would have people practicing in Nevada that they have little or no information on, and have to trust the Board from another jurisdiction did their job when determining licensure. She noted the compacts will start out, and eventually all of those will combine and that will be national licensure.

Item 7- Dr. Louie Puentedura, Vice Chairman, reports on his research pertaining to licensees offering gift cards for patient referrals, and discussion regarding policy for same. Board member Puentedura noted that the previous ruling of the Board was that it was okay as long as the amount was reasonable. He noted that in some cases, a patient refers a friend and they get a token gift card, movie tickets, etc. It was noted that if this is a referral for profit situation, it would not be legal. It was discussed that licensees do marketing to get patients and this is a normal part of it. It was discussed that people are taken to lunch, given donuts, basket of

muffins, and is a movie card any different than that? Board member Sidener said the Board had not set any limits, only to review case by case. She noted that the IRS rules allow up to \$25 for one person. It was discussed that items such as t-shirts may be just to market the business, not for referrals, which is not entering any type of a contract. When it is just to market, don't see this as a problem if not entering any type of contract or arrangement. Dr. Rovetti stated that the advertisement may project that the person is entering into a contract. Board member McKivigan stated that if something is given as a thank you, that seems okay, but if someone is advertising that he will give you something for referring, that does set up a potential violation. It was noted that this was a complaint so the particulars need to be looked into. It was noted that the annual meeting was coming up, and the member may be able to get some information from the other jurisdictions. Chairman Sidener tabled the item until the November meeting.

- Item 8- Review and approval of minutes for Board meeting of July 12, 2013.
Motion to approve with grammatical errors corrected: Puentedura.
Second: McKivigan,
Approved unanimously.
- Item 9- Review and approval of executive session minutes for Board meeting of July 12, 2013.
Motion to approve: Puentedura.
Second: Sidener.
Passes unanimously.
- Item 10- Review and approval of minutes of NAC workshop of July 12, 2013.
Motion to approve: Puentedura.
Second: McKivigan.
Passes unanimously.
- Item 11- Review and approval of minutes for Board meeting of August 23, 2013.
Motion to approve with grammatical errors corrected: Puentedura.
Second: Sidener.
Passes.
- Item 12- Review and approval of executive session minutes for Board meeting of August 23, 2013.
Motion to approve with grammatical errors corrected: Puentedura.
Second: Sidener.
Passes unanimously.
- Item 13- Review and approval of Treasurer's Report for period ending July 2013.
Motion to approve: Sidener.
Second to motion: Puentedura.
Passes unanimously.

- Item 14- Review and approval of Profit and Loss Report for period ending July 2013.
Motion to approve: Baum.
Second: Sidener.
Passes unanimously.
- Item 15- Review and approval of Balance Sheet as of July 2013.
Motion to approve: Sidener.
Second: McKivigan.
Passes unanimously.
- Item 16- Review and approval of Treasurer's Report for period ending August 2013.
Puentedura, Kathy;
- Item 17- Review and approval of Profit and Loss Report for period ending August 2013.
Motion to approve: Puentedura.
Second: McKivigan.
Passes unanimously.
- Item 18- Review and approval of Balance Sheet as of August 2013.
Motion to approve: Puentedura.
Second: McKivigan.
Passes unanimously.
- Item 19- Review and approval of current Fiscal Year Budget Report. This item was tabled until the bookkeeper completes the review of the books and any audit entries are completed and a budget can be completed.
- Item 20- Review and approval of proposed budget for the 2013-14 fiscal year. This item was tabled until the bookkeeper completes the review of the books and any audit entries are completed and a budget can be completed. able
- Item 21- Review and approval of Executive Director's Report as of August, 2013.
Motion to approve: McKivigan.
Second: Sidener.
Passes unanimously.
- Item 22- Review and approval of Board policies. The director requested that the materials include all of the statutes the Board must follow per Nevada law, as it is those laws that dictate the majority of the Board's activities. Board member Puentedura noted that he compiled the various policies into one searchable document. Board member Baum stated that she and Board member Menicucci were working on the changes to the director's performance evaluation and they may have changes to the job description.
Motion to approve and post to the Board's website: Puentedura.
Second to motion: McKivigan.
Passes unanimously.

Muriel Morin-Mendes asked for her job description to be reviewed, noting that there are things she is in charge of coordinating applications and she copies checks and deposits, and that is not in description. The director noted that she will work on the new description and secure Muriel's input before presenting to the Board for approval.

Item 23- Discussion with Board Inspector applicants. Debby Dieter and Richard Reid appeared. Chairman Sidener stated that she asked the director to invite the applicants to the meeting to see what happens at Board meetings. She stated that it would be good to meet the candidates face to face, and allow for questions. The applicants introduced themselves and the Board reviewed their resumes.

Item 24- Update of activities of Board office.

The director stated she had arranged for desk top deposit, on-line banking, and fraud protection and that was in the works. It was noted that the renewal process went well. It was noted that several licensees have reinstated their licenses, having failed to renew on time. It was noted that there will be a lot of change of address violations coming forward based on return mail from the 2013 Newsletter. It was noted that the bookkeeper was reviewing the books and had requested information from the Board and the accountant. Once the bookkeeper has a clear picture of the Board's finances, she will perform all payroll functions and reporting. It was noted that the lease on the office space expires in February 2014 and the state Building and Grounds department is working on a lease extension for the current space, or a move to a new space. It was noted that the space request form had been completed and provided to the state.

Item 25- Review of files/ratification for licensure.

FILES FOR REVIEW/RATIFICATION:

Motion to ratify the licenses: Puentedura.

Second: McKivigan.

Passes unanimously.

Cross Country Education	"I" Care: Writing Survey Ready Care Plans	not relevant to scope of practice; geared for nursing

Item 27- Report from legal counsel regarding pending cases. Mr. Dreitzer stated that he and board staff are processing as cases occur and there is no backlog.

Item 28- Items for future agendas.

Item 29- Public comment period. Deborah Dieter, PT, member of the Advisory Committee on Continuing Education stated she was not aware of the issue of Dr. Dunning's courses before the meeting, and stated the committee should know if they are being scrutinized. It was noted that the issue came about several years ago, before she was on the Committee, and current approvals had occurred, and this was a new complaint of the course approvals. She stated that she does not agree that the two committee chairmen meeting is not a good idea. Board member Puentedura stated that he appreciates her opinion and believes that Boar has good standing on this issue.

Item 30- Confirm schedule of future Board meetings and their locations. The next meetings will be held as follows:

November 14th in Las Vegas; January 16th in Las Vegas.

Item 31- Adjournment of the Board meeting. The meeting was adjourned at 1:48pm by Chairman Sidener.
