Review and Discussion on Board Meeting Actions

a. Jen Nash, Board Liaison

Jen Nash Board Liaison gave the ACCC a brief update on the last Board meeting, The Board was ok with the changes that were made to the current White Paper and suggested that one thing be updated and changed. When it comes to psychosocial content not relating to the practice of physical therapy. The Board suggested that the ACCC Change the verbiage to: psychosocial content not relating to the practice of HealthCare.

- i. CE Vendor (for Possible Action) The Committee will review and discuss the benefits of utilizing a CE vendor and possibly make recommendations to the Board.

Jen Nash updated the ACCC on the vendor demo we had at our last Board meeting from CE Broker. Jen explained to the ACCC that the Board still has not come to a decision on whether we are going to move forward with using CE vendor. She was interested in committee impressions of the product. Chair Tiffany Barrett and Member Krysta Boyd liked the product to help licensees identify approved continuing education courses more easily.

Item 6

Course Review rates (for Possible Action). The committee will review, discuss and possibly recommend fee changes to NAC 640.025(4) for request to consider

approval of courses of study or training for licensed physical therapist, pursuant to subsection 4 of NRS 640.150

a. Jen Nash discussed with the ACCC that Nevada is one of the lowest on course review rates. Executive Director Harvey gave some insight to the ACCC. Our CE providers are nationwide. Looking at our course view rates \$10.00, \$30.00, \$50.00 depending on the course hours. Chair Barrett shared some concerns in regards to the fee. Some of the concerns are the more specialized courses are submitted by the licensees, possibly fewer course submissions, possibly having two different fee schedules one for course providers one for licensees.

Item 7 Course Approval Term Lengths (For Possible Action). The committee will review, discuss and possibly recommend changes to NAC 640.450(1) for the approval period of courses of study or training approved by the ACCC

a. Jen Nash discussed that the course expiration dates always expire July 31st every year. This creates a bottle neck and creates a large work load for the spring and summer months for the staff as well as the Committee. The Course expiration dates have caused significant confusion in the past. Solutions were discussed including suggestion of a flat 2-year period date to where the approval would be two years from the date of approval. The ACCC feels that would be a good change.

Item 8 Review and Recommendation of new and previously reviewed Continuing Competency Courses **(For Possible Action)**.
